Professional Summary

Experienced MERN stack developer with a passion for creating efficient and scalable web applications. Skilled in React.js, Node.js, JavaScript, Redux, Oracle, HTML5, CSS, Bootstrap, Material UI, PL/SQL, GitHub, RESTful APIs, Responsive Web Design, Agile Methodologies, Unit Testing, and Webpack. Proficient in developing cross-platform mobile applications using React Native. Proven track record of delivering high-quality software solutions in fast-paced environments. Seeking opportunities to leverage my skills in a dynamic team environment.

Skills

Frontend Skills : React.js, JavaScript, Redux, HTML5, CSS, Bootstrap, Material UI, Responsive Web Design
Backend Skills : Node.js, Express.js, RESTful APIs, Git
Database Skills : OracleDB
DevOps : Docker

Work Experience

04/2022 – Present

Full Stack Developer, *Claptek Pvt Ltd*, Mumbai, Maharashtra
- Developed single-page applications (SPAs) using React, Redux, and Node.js tools.
- Designed and developed modular and reusable RESTful APIs and frontend components.
- Integrated Redux for state management in React applications.
- Utilized Express.js for building RESTful APIs and server-side logic.
- Worked with OracleDB for database management.
- Managed technical documentation for Redux state management.
- Implemented mobile app features using React Native for cross-platform compatibility.
- Collaborated with a team and managed work using project management tools.

06/2021 – 12/2023

Jr. Front End Developer, *Mahindra & Mahindra Ltd*, Location
- Wrote supporting code for web applications or websites.
- Communicated with network personnel or website hosting agencies to address hardware or software issues affecting websites.
- Documented test plans, testing procedures, or test results.
- Maintained an understanding of current web technologies or programming practices through continuing education, reading, or participation in professional conferences, workshops, or groups.

Projects

Full-Stack Project: Workflow Management System
- Developed a comprehensive Workflow Management System using React.js, Express.js, and MySQL.
- Implemented JWT authentication for secure user authentication and authorization.
- Designed and developed user management functionalities, allowing for user registration, login, and profile management.
- Integrated drag and drop elements for easy task management and workflow creation.
- Implemented multi-step forms for creating and editing workflows, providing a user-friendly experience.
- Utilized MySQL for database management, ensuring data integrity and scalability.
- Integrated a mailing service for notifications and task assignments.
- Successfully delivered a robust and scalable workflow management solution meeting client requirements.

Assessment Application

- Engineered a dynamic Assessment Application using React, Axios, Bootstrap, and Redux for seamless functionality.
- Integrated React-Table for streamlined data management and captivating modals for an interactive user experience.
- Elevated functionality with Redux-powered state management, enabling API-driven global search and export to Excel and PDF.
- A comprehensive solution blending technology and user-centric design, ensuring optimal assessment experiences with enhanced efficiency and user engagement.

Data Driven Audit Management

- Skillfully crafted a dynamic application with a secure login, intricate forms, and attachments using Bootstrap, React Table, and Charts.js 2 for data visualization.
- Implemented Redux for state management, Axios for seamless API calls, resulting in a robust and aesthetically pleasing user experience.

React Native Project

- Developed a basic React Native project to demonstrate fundamental mobile app development skills.
- Created a simple mobile application with basic UI components and navigation features.
- Utilized React Native's capabilities to build a cross-platform mobile app for iOS and Android.
- Implemented basic functionality such as user input, data display, and navigation between screens.

Framework

- Integrated JWT token authentication for enhanced security and implemented Redux for robust state management.
- Introduced multi-row capabilities using React Table, expanded reporting functionalities, and innovatively incorporated a configuration feature for dynamic form creation and editing directly from the frontend.
- Redefined workflow management with streamlined configurations, fostering a highly adaptable and feature-rich application experience.

Education

06/2017 - 11/2020   **Engineering**, *Rajiv Gandhi Institute Of Technology*, Mumbai, Maharashtra

07/2013 - 05/2017   **Diploma**, *VPM's Polytechnic Thane*, Thane, Maharashtra
